Arlington Historical Renovation Permission Letter
5/1/2020

Joanne Robinson

We are looking for approval on a renovation of an exterior located at , 20 Bartlett Ave Arlington. The home is a Victorian style built pre- 1900 in disrepair. We would propose stripping the existing shingles off the home and replacing with wood material and preserve the original style and look of the home. We would finish with a complete exterior paint renovation (3-4 color) as well.

I am the owner of Boston Exterior Remodeling and we specialize in historic renovations. This home would be as close to the original as we can allow with modern tools, techniques and material. I you have any questions please call myself or the homeowner directly.
